To whom it may concern

When I first heard someone talk about Bhagwan on the radio I did not understand what was all about.

But I wanted to know more about Bhagwan, and started reading a book and I felt a big desire to go and see him, but that time it was just impossible I didn't have the money so I just kept on reading and listening to his tapes and all that time I knew I wanted to become a sannyasin. After four years I went to a centre and did meditations and became a sannyasin, and at all feels very good. It is the first time in my life that it itself is making sense to me now. This year I went to the second actual world celebration and saw Bhagwan and I feel more thankful than I already that. I hope to see him on the next celebration.
