To whom it may concern

For me it is nearly impossible to put in words what Bhagwan mean to me, what happened with me since I came in contact with his energie through his disciples here in Holland. What to say about a man who brought me so much more in contact with myself, just by being with him in Poona, Rajneshpuram and now living in his dutch Bushfield in Amsterdam called Sadhane. It gives me so, more, much playfulness and joy and intensity for which I looked every where and which I found only with Bhagwan and his sanghasins. Right know I'm working in the kitchen of a big community of 60 people. Seven days a week, and that's my meditation and that's for me all there is.

With love
