To whom it may concern!

To start this letter with, I first like to tell you something about myself.

My name is Ma Anand Sharda and I'm 18 years old. I finished my school when I was 17 years old. Since that I'm doing a lot of bodywork. I have been nine years on gymnastic and when I stopped this, I went into all sorts of dancing. Now I'm studying in my spare time for being a professional aerobic teacher.

I'm now two and a half years a sannyasin of my beloved master Bhagwan Shree Rajneesh. And this is really it, for me. It's a feeling of a total YES inside of me and of falling in love. Love for every thing: Bhagwan, life, nature, city, people, my worship which is my work. Just everything.

I work in a hospital, giving people food and drink. And it's so beautiful. It's like whenever I give a patient food, I give love to them, I give it out of my heart and not because I have to give them this food. I feel many times like a mother, taking care of her kids. And the people feel it and like it very much.

EXHIBIT "A-2508"

I live now for one and a half year in Sadhana
Rajneesh Sannyas Ashram in Amsterdam. I share
this place with 60 other disciples of Bhaqwan.
And it's very beautiful, the way we are together,
sharing a lot, and worshipping

This year we all went to the Second Annual World
celebration in Rajneeshpuram. And we all had a beauti-
ful time. In the presence of Bhaqwan, there so muc
happening, even when He doesn't speak to us direct-
To hear words or not doesn't matter, just to be in
his presence is already a lot. It's beautiful. We
got again so much juice, love, light and everything,
we filled our hearts again.

For me it's very important to see and feel Bhac-
every year again, now He's still alive. And with
all that new energie, I can go back to Holland eve
more singing, dancing, loving and laughing as ever
before. Isn't it beautiful?

With love

Sharolo
