

To whom it may concern:

Once I became interested in Bhagwan, I read some of his books, listened to his tapes and after a while I started to do the meditations the way he instructed. It was during these meditations that I first felt a very clear and concrete connection to Bhagwan, so I became a sannyasin. Since then this connection has become personally stronger and stronger and very special.

Words can not express the essence of sannyas. Words can only touch the surface of Bhagwan's teaching and to me they are very often a disturbance.

Sincerely Yours

Ma Prem Purva
